## DETAILED ACTION

### ***Response to Arguments***

1. The Applicants' arguments and amendments filed on June 5, 2007 have been fully considered and are persuasive.

### ***Allowable Subject Matter***

2. Claims 1-6, 8-14, 16-17, 19, 23-28, 30-33, 37-42, 44-50, 52-53, 55, and 59-70 are allowed. The claims indicated include limitations that the prior arts of record do not appear to teach or render obvious, hence they are allowed.
3. The following is an examiner's statement of reasons for allowance:  
  
As presented in the previous Office Action, Nakagaki et al. (US005857077) discloses, *"An information processing method according to the present invention comprises the steps of: sensing information distribution from a first information processing system as an information distribution source to a second information processing system as an information distribution destination; storing a history related to the sensed information distribution in a storage of the second information processing system; in response to the history stored on the storage in the second information processing system, acquiring the histories stored on storage in other information processing systems; and analyzing an information distribution route in response to the acquired histories"* (Nakagaki, col.4, lines 7-18).

Art Unit: 2145

However, the prior arts of record fail to teach or suggest individually or in combination as stated in the independent claims for *"wherein the relationship includes a hierarchical relationship among at least some of: the sender and the one or more recipients, and wherein displaying comprises displaying the propagation history superimposed as the pathway on the chart showing the hierarchical relationship"* and in combination with other limitations as set forth in the independent claims, as well as Applicants' arguments presented on pages 23-25 of the After Non-Final filed on June 5, 2007.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
